

Non-NHS travel vaccinations

The following travel vaccines are not available at NHS expense when exclusively given for travel purposes:

- Japanese encephalitis
- Tick-borne encephalitis
- Meningitis ACWY (quadrivalent meningococcal meningitis vaccine; A, C, Y and W135)
- Rabies
- Tuberculosis
- Yellow fever
- Hepatitis B
- Combined hepatitis A and B vaccine is not supported for prescribing on the NHS for travel purposes within Mid and South Essex ICB. Patients requiring both vaccines for travel purposes should be offered hepatitis A vaccine as an NHS service and hepatitis B vaccine separately as a private service.
